

FALL NEWSLETTER

Hello Friends!

Welcome to our first ever, Clear Marine Newsletter! We thought a newsletter was the best way to inform all our friends, associates and clients of some of the big changes Clear Marine has undertaken this past summer and fall.

In August we moved the business to Canoe Cove Marina in an effort to stay better connected with our cliental and the boating community in general. Please check out the new look and feel of Clear Marine on our website www.clearmarine.com and let us know what you think! These and many other steps are being taken to further convey Clear Marine's attention to quality fit and finish solutions to enhance the boating experience of our clients in the Pacific Northwest and abroad.

To date our commitment to customer satisfaction has made word of mouth and customer referrals our best source of new business. For this we appreciate and thank you! This fall we introduced ourselves to new clients through the internet and print media in Septembers Pacific Yachting Magazine (page 57). We will also be appearing in Novembers Issue of Pacific Yachting and the 2011 Waggoner Cruising Guide.

Below is our ever growing list of products and services:

Boat Bath

Davit Installation

**Boat House
Curtains**

**HydroHoist
Boat Lifts**

**Inflatable Repairs
& Cleaning**

NEW PRODUCTS AND SERVICES

*We are proud and honoured to have been recently recognized by the biggest name in inflatable boats. Clear Marine is now an **Authorized Zodiac Repair and Warranty Facility**.*

FEHRWAY STERN TIE

*This is a great NEW product from Fehrway Marine that has perfected the Art of Stern Tying! If you have ever been frustrated by this process or even decided not to do it at all because it was too stressful, you will have to check out **the Fehrway Stern Tie** video on our website.*

CURTAIN MAINTAINENCE PROGRAM

If your boathouse has a curtain, give us a call to schedule your fall maintenance to ensure your curtain is ready for the harsh winter weather. Preventative maintenance can save you thousands!

Ask about our Anti-splay cables for snow loads!

We are delighted to be the Peninsula dealer for Wallas Diesel Heaters and Stoves!

Wallas boat stoves, ovens and heaters use burner technology ensuring extremely clean and silent burning over the whole temperature range. The closed circulation of combustion air and non-explosive, non-pressurised fuel guarantees safe operation.

Thirty five years of experience and continuous product development have helped us create a range of products that emphasise both safety and reliability, the qualities valued by all boaters.

Call us to help extend your boating season!

INFLATABLE REPAIR CLEANING & MAINTAINENCE

Don't leave your inflatable repairs until Spring! Improper inflation is one of the leading causes of inflatable damage. Low pressured tubes may allow the dingy to hang awkwardly and put undue stress on contact points and other areas. We have even seen davit pads pulled off completely.

While in our care we can also arrange for outboard servicing and winterization.

Your feedback, comments and suggestions are of great value to us, please feel free to contact us anytime!
